The Lynden Ventilated Door with functional airflow, available by special order in three distinctive styles: Vertical, Locker, and Ladder. Integrated ventilation helps reduce heat, humidity, and pressure buildup in closets, bathrooms, laundry rooms, and mechanical spaces without the need for unsightly grilles or vents. Available in various wood species and custom finishes, these doors provide a stylish solution wherever ventilation is essential. Door heights are available up to 10' tall and widths up to 48" wide.
