This 7-1/4 3 ogee style baseboard can be used in both modern and classic designs and is available in both Primed MDF and FJ Primed Poplar 16' lengths. Baseboard ties the wall and floor together offering a visual foundation. It protects the walls from bumps and cleaning. The baseboard should compliment the style of casing and should be thinner and wider than the casing. Shoe mould often accompanies the baseboard if the floor is uneven or there is gaps between the baseboard and the flooring.
